

Front End Web-Developer

Contract type - Internship

We are Skileo, a communications firm of 15 employees located in the Boston, MA area. We handle a variety of Web and Mobile based projects from a wide assortment of Contractors ranging from: Government sectors to Global/Local brands. Despite being a young company, we have very quickly made a name for ourselves as a family rather than a business and have a good track record of being hard working and reliable in the Web Development sector. Our core values are reflected in our employees and more so in the work we produce, we aim for the highest quality in everything we do. Working for us is the opportunity to work in a dynamic environment where no two days are ever the same, in an ever growing technical world Web Developers are needed more than ever, and we ensure you all have room to grow and strive in that world.

What we offer you:

A chance to hone your skills in Front End Web Development with a team of experienced developers of varying years experience.

Flexibility of work - while on the job, opportunities often come up to branch out onto other projects.

Competitive Pay

Health and Dental Insurance

401k / pension plan

4 weeks total Paid Vacation

What we need from you:

Proficiency in core web technologies: HTML5, CSS, Javascript

Knowledge of repositories; GIT

Experience building Web applications and websites following design techniques and principles

Experience with Javascript Frameworks i.e. REACT or similar.

Problem Solving skills both individually and collectively as a team

Good communication

What would set you apart:

1+ years Professional Experience

Working knowledge of bug tracking software i.e. JIRA

Experience of Development within a team

Computer Science (or equivalent) degree
